

Sallie Jones Elementary School

Charlotte County Public Schools, Florida

Background

During the 2019–2020 school year, Sallie Jones Elementary School administrators noticed a decline in kindergarten readiness due to learning disruptions caused by COVID-19 and decided to implement a solution to move the lowest performing students out of struggling and into proficiency. Principal Jennie Hoke wanted her kindergarten and 1st grade students to improve number sense and operations and help initiate a love and enthusiasm for math that was not being created by other programs. This School Spotlight summarizes Sallie Jones Elementary School's initial year of using *My Math Academy* and highlights the project's positive outcomes and keys to success.

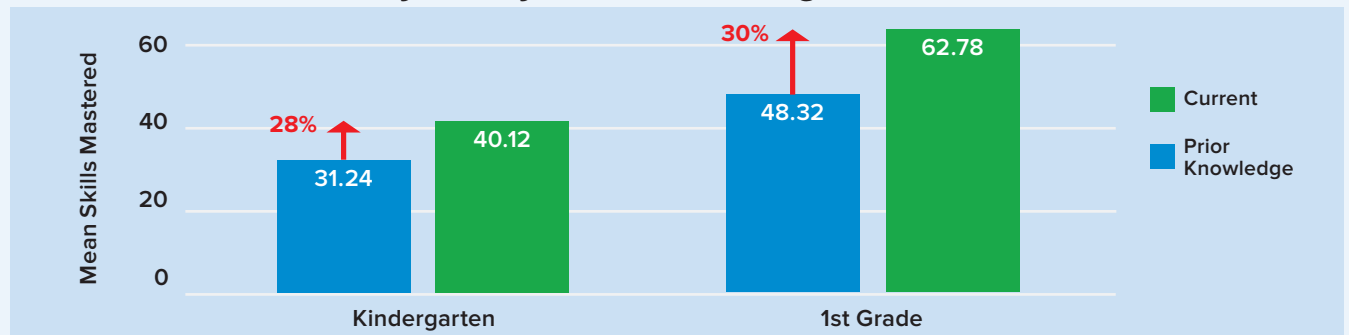

Implementation Overview: Yr. 1

More than 140 kindergarten and 1st grade students used *My Math Academy* during the 2020–2021 school year:

- There were 81 kindergarten students.
- There were 60 1st grade students.
- About 1/3 of the students started in fall 2020, 1/3 in winter 2021, and 1/3 in spring 2021.
- On average, students used the program for 36 minutes per week, ranging from 6 to 33 weeks

Student Achievement

Skill Levels Increased by Nearly 30% for Kindergarten and 1st Grade Students

Outcome and Observation Results

- Two-thirds of the students who moved out of the lowest quartile on their school benchmark assessment used *My Math Academy*.
- Teachers reported strong engagement and excitement among their students and the school renewed for 2021–22.
- Families were engaged and happy with the home accessibility, ease of use, and ability to track their child's math performance.
- After a second year of success at Sallie Jones ES, the district expanded the program to all 3,650 kindergarten through 2nd grade and pre-K students.

School Profile

Sallie Jones Elementary School, a **Leader in Me Lighthouse School**

Pre-K to 5th Grade

645 Students

Title 1 School

Top 10% Performance in State

#1 out of 11 District Elementary Schools

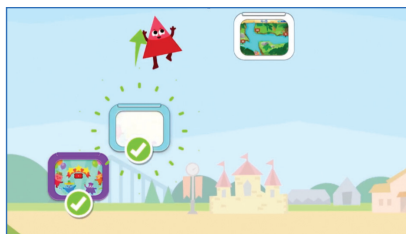

Accelerated Math Instruction for Pre-K Through 2nd Grade

A research-based, fully adaptive program that helps children build mastery of fundamental math skills.

My Math Academy[®]

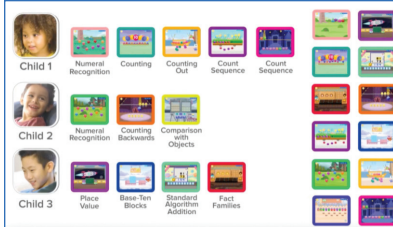

My Math Academy, from the creator of *ABCmouse*, is a standards-aligned program that's proven to help students make learning gains in foundational math skills. Grounded in the latest learning sciences research and powered by adaptive technology, *My Math Academy* inspires a love of learning, helping students grow a strong understanding of fundamental math concepts and skills, accelerate growth, and close learning gaps.

Engaging

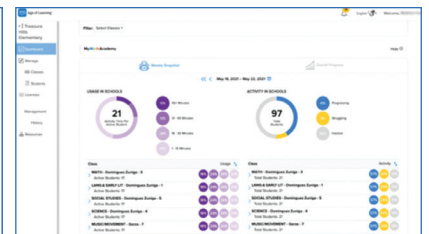

Engaging, interactive lessons covering more than 200 Learning Objectives are aligned to Florida's B.E.S.T. and FELD Standards.

Phone and tablet apps let students extend learning and inform teachers and parents.

Personalized Learning

Personalized Learning Paths adapt to each student, while continuous placement assessments and Dynamic Scaffolding™ provide direct instruction and in-time feedback to help students move from introduction to mastery.

Progress Monitoring

Real-time progress monitoring and easy-to-use Dashboards provide recommended student groupings and targeted instruction based on Florida's B.E.S.T. Standards and FELD Standards.

At Age of Learning, we support educators in the pursuit of educational opportunity and success for every student. Our standards-aligned digital education programs for schools are proven to help students achieve mastery and collectively accelerate learning gains from the classroom to the district level. By providing personalized, easy-to-implement solutions, we help educators deliver targeted instruction to address individual student needs, giving each child an engaging, customized path to learning success.
